

The everyday electronic magnifier

When your eyesight begins to fail and your glasses are no longer enough, reading can become a tremendous challenge. This is where the electronic magnifiers VISIO 22 and VISIO 22+ come in, helping you retain that all important independence.

The VISIO 22 and VISIO 22+ provide extra magnification with a crisp, clear picture so you can lead a normal life again. VISIO 22 and VISIO 22+ magnify printed texts but also photos and other objects in full colour or contrasting colours if desired.

- Large 22" TFT widescreen monitor
- Crisp, clear picture at the press of a button
- Intuitively operated buttons with clear markings
- Aesthetically pleasing, stylish aluminium look
- Easy to use – Switch-on and go
- Complete standard functionality
- Energy-saving LED lighting

VISIO 22/22+

Retain your daily independence
with the VISIO 22/22+

Place your documents and objects on the XY-table and VISIO 22/22+ magnifies them on a widescreen monitor. Size, contrast and brightness can be adjusted to suit your needs. All the controls are mounted at the bottom of the screen for easy access, and are large and logical. For difficult reading material such as newspapers, the VISIO 22/22+ can enhance the text making it clearer. VISIO 22 is the standard model with 4 buttons and VISIO 22+ has 6 buttons and offers more contrasting colour combinations. VISIO 22/22+ is the perfect solution for independent living.
